

SIVAPRAKASAM C

Software Engineer

Bangalore, KA | sivaprakasamcivashankar@gmail.com | +91 70100 47023 | sjr15.vercel.app

linkedin.com/in/sivaprakasamc | github.com/sivaprakashjr15

Objective

Highly motivated Software Engineer graduate with hands-on experience in software development, testing, and maintenance based on business requirements. Strong analytical and problem-solving skills with the ability to learn emerging technologies, deliver quality code on time, and contribute effectively in dynamic, client-focused environments.

Key Skills

- Application Development (Frontend & Backend)
- API Integration & Service-Based Architectures
- Software Testing & Debugging
- Agile & Scrum Methodologies
- Problem Solving & Analytical Thinking
- Cloud Fundamentals & Infrastructure Basics
- Version Control & Code Reviews
- Client-Focused Solution Delivery

Technologies

Languages: Python, Java, JavaScript, SQL

Databases: RDBMS (MySQL), NoSQL

Frameworks & Libraries: React.js, Node.js, Express.js, Next.js, Numpy.

APIs & Integration: RESTful APIs

Tools: Visual Studio, Selenium, Microsoft O365, MySQL.

Cloud Platforms : Google Cloud Platform (GCP), Amazon Web Services (AWS).

Education

Sri Krishna College of Technology, Coimbatore, TN

Oct 2020 – Apr 2024

Bachelor of Engineering in Computer Science- 8.04 GPA

Internship

AR/ VR Developer Intern, Dassault Systèmes – Coimbatore, TN

Jan 2023 – Jun 2023

- Developed an immersive AR/VR-based STEM learning platform, ensuring functionality through rigorous functional and usability testing.
- Built a full-stack web application using React.js and Node.js with integrated 3D content, performing API testing and debugging for reliability.
- Designed and executed test cases, identified defects, and validated UI/UX workflows to improve application performance and user experience.

Software Tester Intern, Curicent Technologies – Coimbatore, TN

Jun 2022 – Dec 2022

- Executed manual and automated testing, designed test cases, and logged defects to ensure high-quality software delivery.
- Supported development and debugging using Java and JavaScript, enabling efficient bug resolution and feature validation.
- Applied testing in web applications with exposure to databases and cloud environments, improving test coverage and system reliability.

Academic Projects

Decentralised social media application (dApp)

- Built a React.js interface with blockchain integration, enabling 30% faster smart contract interactions and 100% user data ownership. Implemented DAO for 70% user-driven platform decisions.
- Tech Stack: HTML, CSS, JavaScript, React.js, Node.js, Solidity.

Permissionless Decentralised Crowd- Funding (Easy Raise)

- Developed Ethereum smart contracts for crowdfunding, ensuring 100% transparency, boosting donor trust by 75%, and cutting costs by 30% through automation.
- Tech Stack: HTML, CSS, JavaScript, React.js, Ether.js, TypeScript, and Solidity.

Certifications

- LambdaTest- Software Testing Professional
- Infosys Springboard- Software Engineering and Agile Software development
- Simplilearn SkillUP - Javascript

Academic Achievements

- Dr. Kalam Awards 2022 (Young Achiever Award) - World Youth Federation (WYF) (2022)
- ETHOnline 2022 - Winner of Best Use of Covalent API & XMTP (\$250 USD Prize) (2022)
- SIH 2022 - Semi-Finalist (2022)
- Led seminars on blockchain for college students, highlighting its impact on web development, and received positive feedback.

Patents

**“Social Media Network built on Polygon(MATIC) blockchain”- Patent No:
SW-18745/2024 | Issue Date- May 7, 2024**

- Developed a decentralized social media platform on Polygon, ensuring privacy and community-driven interactions.
- Leveraged smart contracts for secure data and decentralized governance.
- Empowered users with control over digital identities and peer-to-peer networking.
